GT12 Front A Foam 40Sh -46mm

Ballraced wheels

trued & Glued foam tyres

Sold as a pair

We are pleased to bring you 'A' type foam to the ATOM wheels. 'A' foam material can be used to provide longer lasting foam, wear rates are reduced compared to the Q foam range, however, in some cases, outright grip levels are lower. Under certain conditions this can be of benefit, such as on an extremely grooved in, high grip national style or permanent track. MB Raceway in the UK is a good example of where this foam type may be a useful addition to your tyre box. Available in 37sh and 40sh rear, 40sh and 47sh front.
