

CR151 2.4 Ghz Stick Radio Set

CR151 CODE 2.4G FHSS 2 Stick 3Ch Tx+Rx CORE R/C CODE 2.4G FHSS 2 Stick 3Ch Transmitter & Receiver CORE RC brings to you this revolutionary product, designed for UK racers brought up on a long tradition of twin stick radio configuration. It offers a whole host of features designed for maximum functionality and ease of use. There is now no need for worrying about the frequencies of your buddies, just switch on and play with its excellent 2.4GHz FHSS powers. The features below may look like they come from a £300+ radio but the Core RC CODE costs just a fraction of that!!! Its small 3 channel receiver will fit into almost any application giving the user 'maximum best' performance and reliability. Eight AA batteries are required for this transmitter.
